Dear Mike,

The University apparently prefers 2/9. There seems to be a chance WNAC will want me. Spent two hours with them on the phone last night. If I can and they do 2/8 would be good for that, if it fits there schedule.

Going from this, lets tentatively figure 2/7 for Hartford, and you do what you want with the time. As soon as I get closer to it and know whether I can fit anything else in, I'll let you know. If you have a TV affiliate and they'd like to tape something that would follow your show, by all means. I'll have some pretty good visuals with me, including blowups of some of the pictures in WHITEWASH II. If anyone should desire, I can have documents never before seen. I'll have blowups of the oldest existing handwritten draft of the autopsy showing the substantive changes.

I'll need a pad for that night. It can be quite simple, for that is the way we live. I'm uncomfortable when WNEW puts me in an $80.00 room. I suppose there are regular planes to Boston.

The Manchester book is really a much greater scandal than even I predicted. The full magnitude will not be apparent until the attention to the slush and jet-set thinks wears off. If you have shows without call-in and you'd like, we can tape a couple and give you a night or two off!

Sincerely,
